### **Spicy Rhubarb Honey Chutney**

At Chinook Honey we like to honour our home grown fruits and vegetables. Most farms have a rhubarb patch and we are no exception. Rhubarb has been around for about 4,000 years and is native to northern Asia. It was initially used medicinally but in 19th century Britain it became a dessert staple. Botanically it is a vegetable, related to buckwheat, and is high in vitamin C, fiber and potassium.

Spicy Rhubarb Honey Chutney is a great addition to pork or white fish or serve it as an appetizer with cream cheese and crackers.

\$ 7.50 for 250 ml
