## Hivelihoods

Honey extracting is done and lately we've been making sure the bees are well fed and healthy before going into winter. Wrapping the hives will start within the next few weeks. The bees have fewer warm days now (they lose the ability to fly when temperatures drop below 10c) so without much else to do they huddle together to stay warm.

## **Recipe from the Kitchen**

### **Roasted Squash Salad with Feta and Honey**

Mmmmm - this is delicious, looks beautiful, and is sooo healthy. Using either pumpkin, butternut squash or even sweet potato it's an easy dish to make the day ahead as well. The warm squash flavours blend well with chili flakes, sweet honey, and feta cheese. It is sure to be a crowd-pleaser at your Thanksgiving dinner and can also be served warm!
